

Course ID: 00122968, Rev. 9.4

Format: Instructor-led Training

Duration: 2 Days

Course description:

HP Web Jetadmin Printer Fleet Management Technical is designed to give the students an understanding of benefits derived from imaging and printing fleet management using HP Web Jetadmin capabilities. Included in this course is an overview of HP Web Jetadmin 10 technical features and benefits, and instructive information on using HP Web Jetadmin as a tool for infrastructure management. Hands on labs will familiarize the students with installation and use of HP Web Jetadmin 10.1.

Course objectives:

Participants will learn about HP Printer Fleet Management solutions and how to apply these solutions in customer's environments. The participants will understand how resellers and customers can use HP Web Jetadmin to manage the imaging and printing infrastructure. The students will gain a technical overview of HP Web Jetadmin 10.1.

Who should attend?

This course is aimed at HP resellers, sales representatives and consultants who want to understand how HP Web Jetadmin works and how it can be used to help customers manage imaging and printer fleets.
