

Course ID: 00123486, Rev. 10.1

Format: Instructor-led Training

Duration: 1 Day

Course description:

Included in this course is an overview of HP's Embedded Web Server and HP Web Jetadmin technical features / benefits. Labs are designed to familiarize students with security features that help establish knowledge that can be used to successfully implement security measures in a customer's Imaging and Printing environment.

Course objectives:

Students learn about Imaging and Printing security through live demonstrations that reveal the need for security in today's printing environment. The students engage in activities to create a secure printing environment using HP Embedded Web Server and HP Web Jetadmin.

Who should attend?

This course is aimed at HP resellers, sales representatives and consultants who want to learn how Imaging and Printing security measures can be used to help secure a customer's printing environment.
