HP Partner Learning
HP Document Workflow Technical

Course ID: 00122795, Rev. 9.4
Format: Instructor-led Training
Duration: 2 Days

Course description:

Improve Document Workflow is designed to give the students an understanding of benefits (for both the reseller and customer) derived from first learning and then improving the customer's workflow and processes. Hands on labs will familiarize the students with the HP workflow solutions.

Course objectives:

Participants will learn about HP's workflow solutions and how to apply these solutions in customer's environments. The participants will learn how customers can improve their workflow processes using HP products. The students will be able to recommend and implement the right document workflow solution by understanding the document workflow needs and processes of the customer.

Who should attend?

This course is aimed at HP resellers, sales representatives and consultants who want to learn how consulting on workflows work and how it can be used to improve the customers workflows and business processes.
